Västerås City Is in the heart of central Sweden.

When it comes to travel and transport, the participants go to Västerås themselves.

Most will fly to Arlanda Airport, from there you go by both buses and trains, we have hosts on site, both at Arlanda, Bromma (possibly others airports depending on where you are flying), Central Stockholm and Västerås central station.

We will send out material with all possible information, so Västerås is good geographically with several communication possibilities.
